Binghamton, NY
October 24

Testimonials

"I like to believe that the Lord was looking down on us all with a smile saying, 'Well Done, Good and Faithful Servant' (Matthew 25:23). Overall, the Medical Mission was a rewarding experience and I look forward to many more opportunities to serve in that capacity."

"During the Medical Mission, I was particularly struck by the leveling and humbling effect it seemed to have on all of the volunteers. While we were working together to help successfully run the Mission, it seemed that all differences stemming from age, background, or professional experience seemed to fade away."

"It was really quite heart-rending to see the hope exhibited by these men, women and children with so little means. The entire experience made me reflect upon how fortunate I am in so many ways—but also to realize there are so many people who are struggling to get by but remain 'rich' in spirit."

Through Medical Mission at Home events, Ascension provides health and social services to those with limited access and who are struggling in the communities we serve. Our desire is to continue expansion across Ministry markets to align with and support local community health needs.
